

## Q2 2024 Statement from Open Source Technology Improvement Fund:

What an exciting quarter! Managing Director Amir Montazery spoke at SOSS Community Day at the OSS Summit North America in Seattle. Results of five security audits were published, with many more planned for release in Q3.

The OSTIF team looks forward to the remainder of 2024. There's a lot of work to be done, and we have confidence in ourselves and our partners that we'll bring positive security impact to critical open source infrastructure.
